

# Cyber Security and AI

Mr. Robert Froehlich

10th December 2024

**Add value.  
Inspire trust.**

# SOFTWARE

Software is the set of computer programs, procedures, and possibly associated documentation and data that are linked to the functioning of a computer system

(IEEE Standard 610.12-1990)

Software is a structured set of programs, procedures, and associated documentation as well as data required for the operation of a system.

(ISO/IEC 2382:2015)

Software is a computer program in any form, including those embedded in hardware

(EU Directive 2009/24/EC)

# Disclaimer

This presentation is crafted based on the information accessible up to this date and is prepared with our utmost knowledge.

It reflects our own interpretation of the requirements demonstrated.

This presentation relies on the information currently available. The insights provided during this presentation and by the speaker should not be considered as consultancy or as a specific recommendation for action.

## REGULATIONS

REGULATION (EU) 2017/745 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL  
of 5 April 2017  
on medical devices, amending Directive 2001/83/EC, Regulation (EC) No 178/2002 and Regulation (EC) No 1223/2009 and repealing Council Directives 90/385/EEC and 93/42/EEC  
(Text with EEA relevance)

Official Journal  
of the European Union

# Artificial Intelligence (AI) Act - 2024/1689

## Article 3

(1)

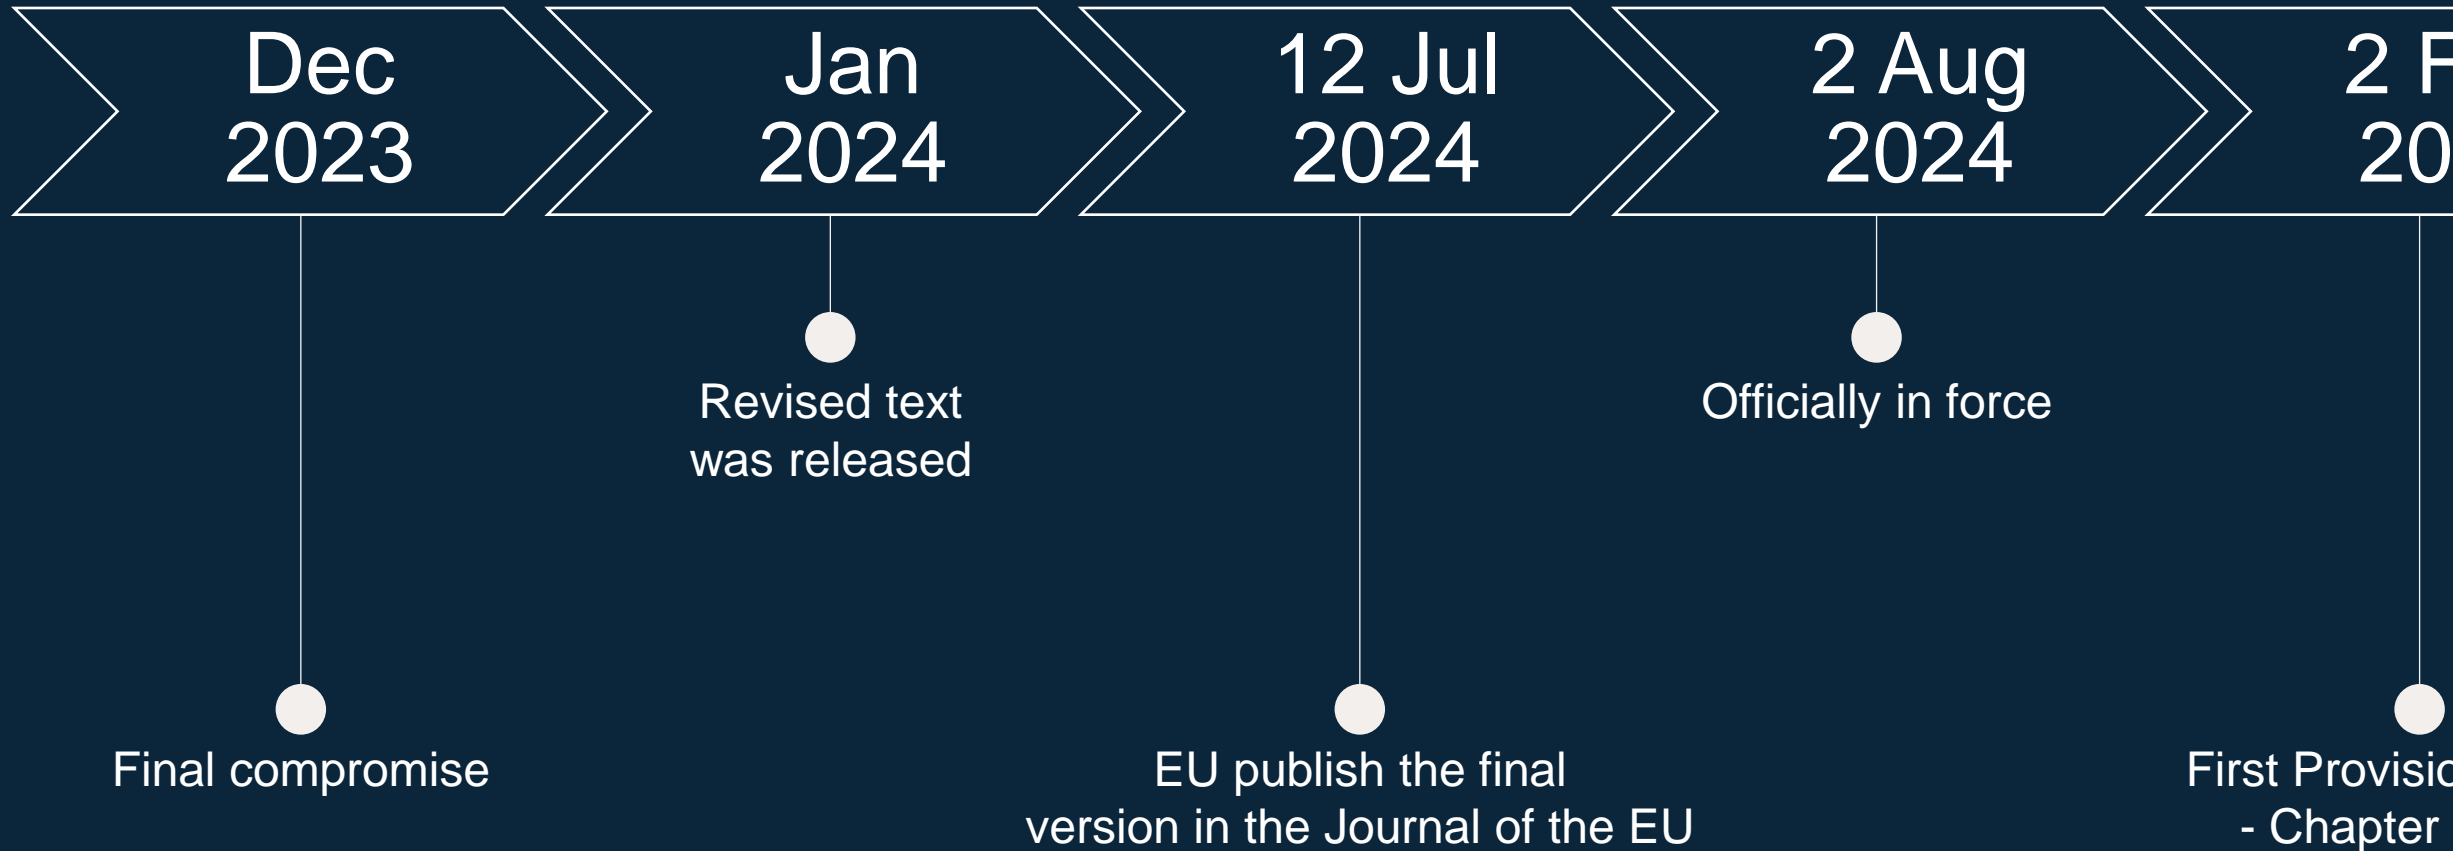

‘AI system’ means a machine-based system that is designed to operate with varying levels of autonomy and that may exhibit adaptiveness after deployment, and that, for explicit or implicit objectives, infers, from the input it receives, how to generate outputs such as predictions, content, recommendations, or decisions that can influence physical or virtual environments.
